

Independent limited assurance report in relation to National Australia Bank Limited's 2016 Dig Deeper Reporting

To the Management and Directors of National Australia Bank Limited ('NAB'),

Scope

We have carried out a limited assurance engagement in order to state that nothing has come to our attention that causes us to believe that NAB's Performance Metrics and Disclosures as detailed below, have not been reported and presented fairly, in all material respects, in accordance with the criteria.

The Performance Metrics and Disclosures for the year ended 30 September 2016 are comprised of 33 key non-financial metrics and the performance disclosures included in the 2016 Dig Deeper Reporting (the 'Report') related to these key metrics. Refer Attachment A for a full list of the 33 metrics over which EY has provided assurance¹.

Our assurance did not include:

- ▶ Data sets, statements, information, systems or approaches relating to areas other than Performance Metrics and Disclosures selected
- ▶ Management's forward looking statements
- ▶ Any comparisons made against historical data. For metrics expressed as a cumulative total, our assurance included testing of the 2016 data and the summation of prior year data² only.

Criteria

The following criteria have been applied to the Report and Performance Metrics and Disclosures described above:

- ▶ NAB's reported criteria for the key non-financial metrics detailed within the Report

The responsibility of management

NAB management is responsible for the preparation and presentation of the Performance Metrics and Disclosures in the Report in accordance with the above Criteria, and is also responsible for the selection of methods used in the Criteria. No conclusion is expressed as to whether the selected methods used are appropriate for the purpose described above. Further, NAB's management is responsible for establishing and maintaining internal controls relevant to the preparation and presentation of the Performance Metrics and Disclosures that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate criteria; maintaining adequate records and making estimates that are reasonable in the circumstances.

Assurance practitioner's responsibility

Our responsibility is to express a limited assurance conclusion in accordance with the International Federation of Accountants' *International Standard for Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* ('ISAE 3000') and in accordance with the terms of reference for this sustainability assurance engagement as agreed with NAB.

Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance. A limited assurance engagement is restricted primarily to enquiries and analytical procedures and the work is substantially less detailed than the work undertaken for a reasonable assurance engagement. As such the level of assurance is lower than would be the case for a reasonable assurance engagement. The procedures performed depend on the assurance practitioner's judgement including the risk of material misstatement of Performance Metrics and Disclosures, whether due to fraud or error. While we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our engagement was not designed to provide assurance on internal controls.

Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems, which would have been performed under a reasonable assurance engagement.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our limited assurance conclusions.

¹ The selected sustainability disclosures for inclusion in the scope were determined based on the outcomes of NAB's materiality review.

² For the 'cumulative number of volunteer hours' metrics, EY has previously provided limited assurance over the data from 2011 to 2015.

Work performed

Our assurance procedures included, but were not limited to:

- ▶ Conducting limited assurance procedures over the non-financial metrics #20 to 24, through checking that the metrics had been correctly transcribed from third party reports into the Report
- ▶ Conducting limited assurance procedures over the other non-financial Performance Metrics and Disclosures, including:
 - ▶ Checking that the calculation criteria have been correctly applied as per the methodologies for the non-financial metrics within the Report
 - ▶ Undertaking analytical procedures to support the reasonableness of the data
 - ▶ Identifying and testing assumptions supporting calculations
 - ▶ Testing, on a sample basis, underlying source information to check accuracy of the data, and
 - ▶ Testing, on a sample basis, the accuracy and balance of performance statements within the Report associated with the key non-financial metrics

Use of our report

We disclaim any assumption of responsibility for any reliance on this assurance statement or on the Performance Metrics and Disclosures to which it relates, to any person other than management and directors of NAB, or for any purpose other than that for which it was prepared.

Independence, competence and experience

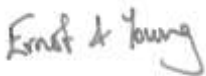

In conducting our engagement we have met the independence requirements of the APES 110 *Code of Ethics for Professional Accountants*. We have the required competencies and experience to conduct this assurance engagement.

Limited assurance conclusion

Based on our procedures, nothing has come to our attention that causes us to believe NAB's Performance Metrics and Disclosures detailed above, have not been reported and presented fairly, in all material respects, in accordance with the Criteria.

Electronic presentation of information

Our engagement included web-based information that was available via web links as of the date of this statement. We provide no assurance over changes to the content of the Report after the date of this assurance statement.
